

HAS Synchro Pumps

- ✓ The system will evenly lift lower, push or pull offset loads.
- ✓ Programmable to allow for variable jacking point heights.
- ✓ Programmable to lift, push, pull or lower to a pre-determined height or distance.
- ✓ Safe, it provides remote operation.
- ✓ Data logging available to record strokes and loads of each cylinder during long periods of time, at user configured intervals.
- ✓ Laptop operated systems include the possibility to record data: position and pressure of each jack during long periods of time, showing graphs of the movement, with the possibility to export the data to a spreadsheet format.

LARZEP®

HYDRAULIC
