

# Hands Free Bolting Back-Up Nut Boxed Sets

The Back-Up Nut Box Sets are complete with the full range of Hands Free Bolting's innovatively designed safety accessory.

Available in both imperial and metric sizes and providing an array of Back-Up Nut's to be available for a variety of applications. This simple yet innovative design ensures a wide range of bolting tools to be held in place during operation, allowing the operator to carry out hands free bolting operations.

Allowing all the essential tools in one place, each Kit is set in a portable hand carry case with cut foam so each tool has its own place.

Add on Hands Free Bolting's Safety Kits for an additional line of safety. Simple and effective, the Safety Kits are easily fitted to Hands Free Bolting's products.
